

Description

COMBO 90 is a plastic corner bead combined with an alkaline resistant fiber glass flange.

COMBO 90 is designed to reinforce outside and inside square plaster corners, while facilitating tooling and providing overall strength and impact resistance.

Performance

Improves corners' esthetics

Saves on time labor

UV resistant

Fire resistant

Alkaline resistant

ASTM D579 compliant

Characteristics

7/8" corner bead

4.5 oz. fiber glass

3" flange

5" flange

8 feet length Color: white

Packaging

8 feet unit

Substrate

The substrate must be clean, dry, and free of dust, frost, grease, oil and other substance that could weaken effecting bonding. An absorbing (porous) substrate shall be damped before mixing the material.

Application

Using a stainless-steel trowel, apply the ecostucco® UNILIME base coat (1/8") about 6" over each side of the inside or outside corner. Immediately and firmly press COMBO 90 into the base and skim any excess material. Let cure overnight and overlap any field reinforcing fiber glass fabric over the flanges.
